

Approval Queue Portfolio Evidence Sheet

Turn a synthetic FAQ drafting workflow into portfolio evidence that is testable, human-approved and incapable of taking an external action.

01	Fictional user, decision, non-goal and action contract	
02	Approved, current synthetic FAQ source boundary	
03	Transparent baseline and draft/handoff/blocked routes	
04	Fixed cases: unsupported, injection, failure and action	
05	Non-executing gpt-5-mini fixture, trace and reviewer gate	
06	Test evidence, nonclaims, rollback and next authorization question
