

AI Pilot Evidence & Measurement Worksheet

从本地 evaluation 走到可讨论的 pilot design：先分清 metric、owner、comparison 和 stop rule。

01	Fictional decision、human owner 和永远不做的 action	
02	Offline model metric、workflow metric 和 delayed outcome 的三层分界	
03	Data owner、allowed / excluded data boundary、retention expiry 和 deletion owner	
04	Baseline、candidate、assignment unit、frozen comparison strategy 和 protocol date	
05	Safety guardrail、reviewer evidence、failure response 和 rollback target	
06	Outcome observation window、claim status、unknowns 和下一个 approval question
