

Model Score Workflow Decision Evidence Sheet

Turn a higher F1 into inspectable decision, capacity, shadow-mode and release evidence—not a business-value claim.

01	Fictional decision, positive class, human owner and non-goal	
02	Point-in-time data boundary, base rate and label timing	
03	Baseline, candidate, fixed holdout and comparison rule	
04	Confusion matrix and false-positive/false-negative cost	
05	Threshold, calibration, reviewer capacity and handoff	
06	Shadow evidence, release/rollback gate and nonclaims
