

Five official starting points for agent and eval learning Worksheet

Choose an official starting point for agent fundamentals, state, runtime events, Promptfoo cases, or cloud evaluation, with checked prerequisites, a Week-1 exercise, feedback route, and limits.

01	Reader decision and user	
02	Input, data boundary and prohibited action	
03	Simple baseline and acceptable output	
04	Fixed cases, failure and handoff	
05	What someone can check in the system: version, test, trace, or result	
06	What still needs explaining before work use: owner, cost, risk, and next step
