

AI engineering shared language: from one model call to a deliverable system Worksheet

Use a bounded policy-draft flow to separate an LLM, context, RAG, MCP, an agent, quantization, and the person who can actually decide.

01	Reader decision and user	
02	Input, data boundary and prohibited action	
03	Simple baseline and acceptable output	
04	Fixed cases, failure and handoff	
05	What someone can check in the system: version, test, trace, or result	
06	What still needs explaining before work use: owner, cost, risk, and next step
