

Tutorial to Portfolio Evidence Book

Turn one chosen learning exercise into traceable, rerunnable engineering evidence you can explain honestly.

01	Source receipt: URL, version, terms and reuse boundary	
02	User decision, data boundary and non-goal	
03	Copied input, deliberate change and simple baseline	
04	Fixed evaluation cases, failure and stop condition	
05	Rerun instructions, version, seed and individual contribution	
06	Five-minute defence and outcomes you cannot claim
