

# AI Engineer Interview Lab: 59 Standalone Practice Questions

Practise one question at a time, moving from the mechanism and trade-off to evidence you can show.

|    |                                            |  |
|----|--------------------------------------------|--|
| 01 | User or system situation for this question |  |
| 02 | Your first 90-second answer                |  |
| 03 | Mechanism, terms and causal link           |  |
| 04 | Simpler baseline and failure boundary      |  |
| 05 | Project artefact you can show              |  |
| 06 | Next adjacent question                     |  |
