

Portfolio Evidence Rubric

Use six dimensions to distinguish a fluent demo from an end-to-end case that can survive follow-up.

01	Problem, user and cost of error	
02	Technical baseline and data boundary	
03	Technical demonstration evidence	
04	Business, delivery and risk evidence	
05	Fixed evaluation, failure record and human owner	
06	GitHub README, nonclaims and next smallest change
