

AI harnesses and completion criteria: decide how to check before choosing a framework Worksheet

Write down the input, source, output format, route, time limit, record, checks, and reviewer. Do not call a fluent paragraph complete on its own.

01	Reader decision and user	
02	Input, data boundary and prohibited action	
03	Simple baseline and acceptable output	
04	Fixed cases, failure and handoff	
05	What someone can check in the system: version, test, trace, or result	
06	What still needs explaining before work use: owner, cost, risk, and next step
